

CREATIVE LATENT PRODUCTIONS

For the ultimate experience join this awesome family of photographers.

I've started my course in February 2007 and it's been a wild rollercoaster ride of a lifetime. When we play we play hard, when we work we work hard, it's been a combination of friendship, commitment and dedication from both the students and lecturers. CLP is a place where you can live your dream as a photographer and just be yourself, there are no limits and the possibilities are endless.

The level of commitment from the lecturers are awesome especially the in-service training, just showing that you are not just another student to them but that they actually care about you as an individual and your career as a photographer.

For the wildest experience in photography join CLP.

Zeanne Loubser.
